

Home News: News updates of Eritrean Kunama child soldiers

The Eritrean regime has designed a three category hierarchy of militias. The newly and forcibly conscripted Kunama children were allocated in to police, infant or ground force and intelligence units. As such, Ala Bayato, Ugale Tishoma and Shabirito Ali were assigned to police department while Balla Asania, Oddili Buti, Toto Udi, Bamba Nayte and Walu Amaren allocated to intelligence units and Aramba Shabi and Herke Addirri were taken to the same institution but to the intelligent unit situated in Karina Bridge.

In addition to this, Amaren Alibay, Addu Ambo, Ambaru Shani, Dabi Mahmud, Orsoma Buti, Alawi kenni, Kawallo Ondim, Efrim Afaray and Armadan Aliyan were disqualified and relieved from militia force. Meanwhile, Efrim Afaray and Dabi Mahmud were forced to retake arms on the same day because they were platoon leaders. No wonder for the regime to take another repressive actions up on its loyal servants. Bashir Ishmail was among the best loyal intelligent heads finally was headed to prison with severe torture. The same happened to Janni Rico who is administrator of Binbilna and its surroundings, finally tortured and left unconscious in Barentu military prison cell.

The administrator of Shambakko Tesfay Gebru and head of the 18th regiment, weddi Hagos, are on their way of the third round mass arrest scheme and emptying the five newly nominated vilages: Aykota, Karkasha, Mariti, Tole Gamuja and Taykanabo for the alleged pretext that they are supporters of DMLEK. They have conducted meetings in tole gamuja on 30/01/2016, 31/01/2016 in Aykota and 02/02/2016 in Karkasha. The agenda was one and the same: to trace and gun down DMLEK's liberation fighters as compulsory engagement being the first, and hunting and bringing drop out members of military was the second agenda.

The two arrogant members of the PFDJ regime are planning to conduct the same type of meeting in Taykanabo. In 2008, Mustafa Nurhussein and General Tawil and his aides were responsible for the poisoning, displacing, and killing the inhabitants of Faulina, Boshoka, and Shambakko sub urbans. Today, the pattern of ethnic cleansing and clearing off Kunama inhabitants is being carried out by the two Tesfay Gebru and Woldu Hagos.

News and information Department of DMLEK.
