

## **Editorial, Feb, 2016. DMLEK will proceed with any means at hand to topple the PFDJ regime!**

The PFDJ-led regime in Eritrea is doing its level best to vacate the Kunama ethnic from the Eritrean soil. As a package of militarizing the whole Eritrean society, it's arming the entire Kunama population, women, men and children.

In the past two weeks, the regime and its staunch supporters are tracing their shadow and foot prints as that of DMLEK's fighters and rounding up the habitats of five Kunama villages, Aykota, Mariti, Karkasha, Tole Gamuja and Taykanabo. They are making consecutive meetings with compulsory directives to be accomplished with in short period of time.

The foot prints being traced belong to six PFDJ soldiers and yet they are forcing the Kunama dwellers of the five villages to held account for any eventuality. A colonel, Hailesilasse Hagos (weddi Hagos) and administrator of the Shambakko Tesfay Gebre, by their names are responsible for these round ups and terrorism inside our people. The entire and cumulative purpose of all the harassment and terrorism is nothing else but to kneel down the Kunama people to refrain from their struggle for survival. The theme of the struggle being justified and honoured by the entire peace loving Kunama and its Eritrean allies and friends, DMLEK will never retreat than taking the necessary steps, measures and actions to avert the ongoing heinous harassment of the regime. As to DMLEK, its members and friends, the PFDJ regime is an enemy of the Eritrean people and should be removed as much as possible. This hard and fast rule is a common denominator for all change and peace loving Eritreans!!
