

Home News: the notorious colonel Hailesilasse Hagos (weddi Hagos) head of the 18th regiment in his usual harassment

To justify his mystification and blaming the Kunama people, the mentioned colonel is doing the same crime against humanity like his elders, colonel Teame or Mekele. On 6th February, 2016, colonel Hailesilasse Hagos (weddi Hagos) has forced the inhabitants of six villages, Aleda shila, Tole Fafa, tole Gamuja, Aykota, Mariti, Karkasha and Taykanabo to trace a foot print of six “DMLEK” (but actually that of PFDJ’s soldiers) commencing from Aya koibidina, a hillside some 8 kilometres from Shambakko town. Nothing was gained but insisted the inhabitants of Taykanabo to sit for a meeting and forced them to bring the fighters or face execution. Secondly, the same colonel on the same date, has gone to Bimbilna and urged the inhabitants of the town to pay a total of NKF 500,000.00 as a fine for the destruction the regime itself has brought up on its own vehicles and ware houses due the fact that the regiment is dwelling there and hunting and heading innocent Kunama to jail. The regime’s soldiers and intelligent units, including the 57 regiment are all involved in gunning down and mass arrest of the innocent Kunama who reside in and around Binbilna village. The international community is hereby by being alerted to give a due attention for the inhumane activities of the PFDJ-led regime in Eritrea.
