

DMLEK's military communiqué of October,2014

Gallant fighters of DMLEK have carried out successive selective and targeted operation between Barentu and Tessenei. Both operations were selected and studied for four months. The first operation was studied up on the notorious and repressive intelligence element and commander, captain Dawit, vice of colonel Futsum who supervise the military movements of Eritrean oppositions. He is stationed in Gulluj where his bed room and office were studied and attacked by two RPG, hand grenade and Kalashnikov bullets. That operation has taken place on 30/10/2014 at 10:00 pm.

The second selected target was the route between Tuntubiya and Brima kanteri, a military spot some 10km from Barentu town. The intention of taking action on this spot is still to attack and burn all the commodities being imported by the regime from Sudan. Here and for that effect, two military vehicles with heavy load of Sugar and cereals, supposed to be sold by PFDJ. Both trucks were attacked by RPG and hand grenades. It was on 30/10/2014 at 10:30 Pm. Stay tuned for both results. DMLEK has more selected targets with ample research and studies to carry out. Stay tuned for the out comes.
